

KENMORE QUARTERLY

OFFICIAL NEWSLETTER OF THE CITY OF KENMORE, WA | SUMMER 2020

Resilience. Compassion. Strength.

The Kenmore community has demonstrated its resilience, compassion, and strength throughout the crisis. Many have stepped up to help those in need, to make and donate masks, and to care for our environment.

See more photos and stories of compassion on page 7.

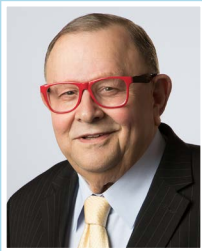

Kenmore Recognized for Leadership in Affordable Housing

Protecting vulnerable residents from the impact of rising home prices was at the forefront of the City of Kenmore's planning in 2019. The Housing Development Consortium of Seattle-King County (HDC) recently recognized Kenmore's outstanding leadership with a [Municipal Champion Award](#).

In 2019 the City took bold action to protect homeowners living affordable housing in approximately 250 manufactured homes in six communities by creating a new Manufactured Housing Community zone that helps ensure these affordable residences are preserved for at least 10 years or longer.

In addition, Kenmore adopted a rent notification ordinance requiring 90-day advance notice of rent increase when rents are proposed to increase by more than 10 percent over the last year. The City's efforts preserved existing affordable housing and enacted new tenant protections—critical tools to protect Kenmore's at-risk residents from the impact of rising home prices.

MEET YOUR CITY COUNCIL

Mayor
David Baker

Deputy Mayor
Nigel Herbig

Councilmember
Milton Curtis

Councilmember
Corina Pfeil

Councilmember
Joe Marshall

Councilmember
Melanie O'Cain

Councilmember
Debra Srebnik

City Council regular meetings are at 7:00 p.m. on the 2nd, 3rd, and 4th Mondays of each month, unless otherwise posted. For more information, visit www.kenmorewa.gov/government/city-council

Message from the Mayor

Greetings to our Kenmore community,

Our world has changed so dramatically since our most recent Kenmore newsletter, and I hope you are managing to meet the many challenges of the COVID 19 pandemic, economic hardship and the anguish and danger caused by bias and hatred. Though it may seem overwhelming, there is something that each of us can do to help our neighbors get through this—and we see examples of this each day. Kenmore community members are stepping up to post remembrances and art installations in memory of George Floyd and Kenmore is observing Pride Month in June. People are checking in with their family and neighbors, supporting local charities and businesses and honoring health care workers and first responders.

We all have a role to play in our community's resilience. Thank you for your courage and kindness.

With respect and admiration,

Mayor David Baker

COVID-19 and the Economic Impacts on Kenmore

An update from City Manager Rob Karlinsey

As a Kenmore resident, I have never been more proud to live in a community that continues to stand strong together as we experience the devastating effects of the COVID-19 pandemic. I have witnessed amazing acts of kindness from strangers and neighbors alike and believe these shared values are what make us most resilient during times of uncertainty.

At the same time, we are deeply concerned for those who have suffered from the virus and who have lost loved ones. We are also concerned about the pandemic's effect on the economy. Kenmore residents, business owners, and employees continue to experience great stress and anxiety as we work towards a phased reopening.

As a city organization, our priority is to move forward by focusing on ways to support our community as we face these challenging times together. I have been keeping a close eye on the City's revenues as well as regional and national economic indicators:

- The current projection shows a decline in the City's operating revenue in the General Fund and Street Fund of 11.5% to 13% in 2020.
- This decline amounts to a \$1.7 million to \$1.9 million loss in revenue out of \$14.9 million in budgeted revenues for 2020.

It is a difficult task to make up for a loss in revenue of this magnitude in the remaining months of the budget year. However, we are moving forward with a two-phased approach:

1. Cut discretionary expenditures down to essential services and preserve essential city services.
2. Reassess our budget situation after we have a few more months of revenue data and economic indicators; then respond accordingly.

City staff have combed through and scrutinized the budget reports and have already cut approximately \$1.024 million in discretionary expenditures for the remainder of 2020. Many of these cuts are unprecedented and far from easy to make.

We also continue to keep a watchful eye on potential grants and other funding sources that may be coming to cities through federal and state channels. Thanks to the federal CARES Act funding that has already been made available to cities from the state, we will be able to pay for some of our pandemic-related costs through this funding source. The City has relatively healthy cash reserves and a rainy day fund. While the reductions in the discretionary expenditures get us more than halfway toward the 2020 projected deficit, we may need to access our reserves to make up for the short-term difference.

Despite the major interruption caused by the pandemic, we still plan to move forward with the [Financial Sustainability Plan \(FSP\)](#) process which will help us get to balanced budgets beyond the short term. After we make these emergency changes to the budget and allow time to see how our budget picture takes shape, we will bring the Financial Sustainability Task Force back together to help us solve the long-term budget problems.

These are undoubtedly very difficult and heartbreaking times, but I am confident with creative problem solving and teamwork we can work through the impacts of COVID-19. I want to thank the Kenmore City Council for their support and leadership and City staff for their hard work and innovative spirits as they have really pulled together as phenomenal team. With such an amazing team, I know we're going to get through this even stronger on the other side.

New Kenmorewa.gov Website Launched June 15!

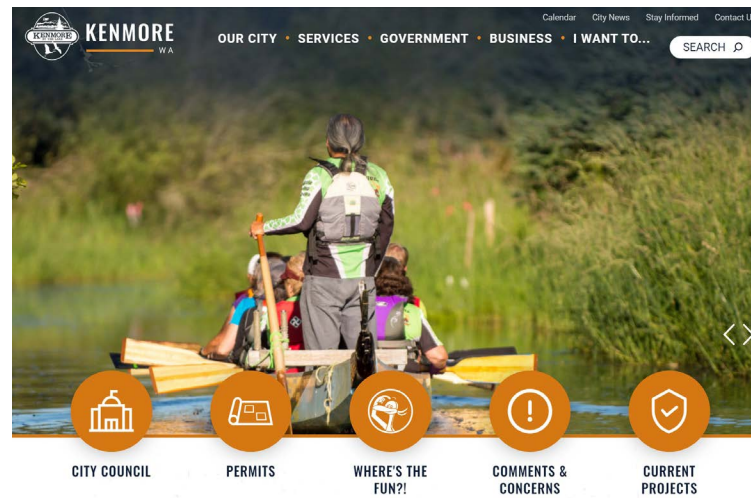

Visit this fresh site and stay up to date on city happenings

The City of Kenmore is excited to announce the launch of a new look and feel for our website, Kenmorewa.gov. The improved site is not only cleaner and easier to navigate, it also includes new communication tools and ways to find useful information about what is happening in the city.

A few perks of the new site:

- Mobile-friendly
- Enhanced searchability of documents and projects
- New accessibility features
- Clean, easy to read and navigate

Featured on the homepage, you can find 5 “Call to Action” buttons that lead users to information they would most likely be searching for such as permits and information on city projects.

You can also find emergency alerts, newsletters, press releases and news items directly on the homepage to help residents stay informed.

While most of the old site's content was transferred and updated to the new website, there is still work being done to refine the new site. Those having difficulty or wanting to give feedback can contact communications@kenmorewa.gov.

**WE'RE HERE.
WE COUNT.**

**Complete
the census.**

**CENSUS
2020**
2020census.gov

Have You Completed the 2020 Census Survey?

If you have completed the [2020 Census Survey online](#), phoned or mailed your survey response to the US Census Bureau, THANK YOU! Because of your diligence, local communities will have access to funding and representation that benefits all of us for the next ten years. Your participation helps your tax dollars come back to your community.

If you haven't yet completed the 2020 Census Survey, please take a moment to do so now. Every person living in your household as of April 1, 2020 should be counted on the census form, including children and babies, senior citizens, relatives and non-relatives, regardless of immigration status. If you have questions or need help, call toll-free 844-330-2020 (English), 844-468-2020 (Spanish), or 844-467-2020 (TDD). Language assistance is available in 59 languages online and 17 over the phone: 2020census.gov/languages

Thank you for sending the message: We're Here! We Count!

A Message from the Kenmore Chief of Police

These have been trying times for our community. I appreciate the patience and understanding of Kenmore residents over the past several months. First, we faced a pandemic that has had a yet to be determined health, economic, and physiological toll on the community. More recently, we saw the egregious criminal acts of a group of police officers in Minneapolis lead to outrage over the murder of George Floyd.

Over the past few months, we have witnessed the vast majority of residents continuing to make responsible decisions and being good neighbors, despite the stressors that come with being in lockdown or quarantine. As a result, crime is generally down around the city. That said, we are always ready to address issues when society returns to the new post-pandemic "normal."

Kenmore Police officers have continued to maintain our normal staffing levels through the pandemic. We are using our safety protocols to keep the public and responding officers healthy. For this reason, if you call 911 to report a crime that is not in-progress, you may be encouraged to file a report on-line through www.reporttosheriff.org. Alternatively, an officer may call and take a report from you over the phone.

If an officer does have to come to your home or business to speak with you in person, the 911 call receiver will ask you health questions about everyone at your location (cough, fever, etc). This will help determine the level of personal protective equipment that the officers may need to wear to keep both you and the officers safe.

Furthermore, the officers of the Kenmore Police Department remain dedicated to upholding our sworn duty of defending the principles of equality and fairness in your community. The Kenmore Police work closely with the Advanced Training Unit of the King County Sheriff's Office, and have become a model agency for training in this state. We exceed Washington State Criminal Justice Training Commission requirements, and mandate a diverse program of training, including de-escalation, bias awareness, and crisis intervention.

It pains me that the actions of the officers in Minneapolis erode the long-standing efforts that we have made in Kenmore to build trust and partnerships with the community. I want you to know that we continue to be here for you 24/7, protecting everyone in our community with equity and dignity.

Brandon Moen
Chief of Police

Kenmore Receives Statewide Award

The City of Kenmore recently received the **Municipal Excellence Award** presented by the Association of Washington Cities (AWC). The statewide award honored five cities putting creative ideas to use for their communities and Kenmore was chosen from among 25 applications to receive recognition for The Hangar at Town Square.

Kenmore's extensive downtown redevelopment is anchored around The Hangar, a new community building on the Town Square public plaza. The complex serves as a gathering place at the center of the city's plan for a revitalized residential and commercial district, and the aviation theme honors the city's ongoing seaplane heritage. Revenues from private development covered constructions costs of the public spaces, and public-private partnerships were leveraged to ensure compatibility with the city's vision.

This is not the first award the City of Kenmore has received for its Downtown Kenmore redevelopment projects. Kenmore was awarded the Washington State Governor's Smart Communities Award in 2016 as well as the 2019 VISION 2040 Award from the Puget Sound Regional Council for its downtown creation project.

VOLUNTEER OPPORTUNITIES DURING COVID-19 PANDEMIC

The [King County Regional Donations Connector](#) is now available online to link up individuals, businesses, non-profits, and others who have resources with those who need them during the COVID-19 pandemic. The Donations Connector will help make sure services, supplies, and funding reach health care providers, first responders, and social service entities working on the front lines.

[United Way Volunteer Opportunities](#)
[Community Relief Fund](#)

For more information regarding upcoming local volunteer opportunities, visit:
kenmorewa.gov/our-city/volunteer-programs

Register Your Business and Get Listed in the Kenmore Business Directory

Did you know? Business registration is required for businesses physically located within the City of Kenmore.

Business registration is a great way for the City of Kenmore to connect with local businesses to provide support as well as emergency contact and safety information. It also provides benefits to businesses such as inclusion in the Kenmore Business Directory and funding for promotion of the Kenmore business community.

Who needs to have a Kenmore Business Registration?

- Businesses located in Kenmore, with a gross annual income over \$12,000. However, businesses with a gross annual income of less than \$12,000 may register voluntarily for access to the benefits listed above.
- Nonprofit organizations located in Kenmore (excluding churches, schools, universities, and farmers selling their own products)

How do I register my business?

For convenient online registration, go to bls.dor.wa.gov. You can reach DOR's Business Licensing Service by phone at 1.800.451.7985. New business registrations are \$29 for the first year and \$21 each year after. Non-profit registrations are \$19 for the first year, and \$11 each year after.

How do I get my business listed in the Kenmore Business directory?

Businesses with a Kenmore Business Registration have the option of being included in the online Kenmore Business Directory. Please go to dor.wa.gov/kenmore to provide your business information as you want it listed. The directory is updated monthly as new business listings are added. To view the directory, go to www.findkenmore.org.

Thanks to the nearly 800 Kenmore businesses who have registered! This program helps the City connect with the business community, and revenues are directed to promoting and supporting Kenmore businesses, and other programs such as the Kenmore Business Alliance. The Business Registration Requirement has been in place since 2014.

Anonymous artists have left public art and positive messages around the community to brighten our days.

Northshore Senior Center is providing essential services to our senior community such as a grocery and hot meal delivery as well as a food pantry hub for the entire community. For more information, visit northshoreseniorcenter.org

Be strong now, because things will get better. It might be stormy now, but it can't rain forever!

Perhaps there is no perfect or simple way to tread through this valley, but perhaps there

City staff member Maura Query spends the weekend volunteering with her daughter, picking up trash at Log Boom Park and leaving love notes at Kenmore bus stations.

Kenmore Love Notes: Coming Together as a Community During COVID-19

This has been a challenging time for everyone. However, the Kenmore community has demonstrated its resilience, compassion, and strength throughout the crisis. Many have stepped up to help those in need, to make and donate masks, and to care for our environment. Kenmore has proven during this pandemic that we stand together, take care of one another, and find creative ways for neighbors to help neighbors during hardship.

Kenmore Police Officer Boyer donated funds, which were matched by Snapdoodle Toys, to give out a variety of toys to students during the Northshore School District's free lunch service program. This was cooperative effort between Kenmore Police, Northshore School District, and Snapdoodle Toys.

City staff member Sammie Rouen created and donated custom printed Hank Heron face masks for City staff who are performing essential duties in the community.

What a way to make the kids' day!

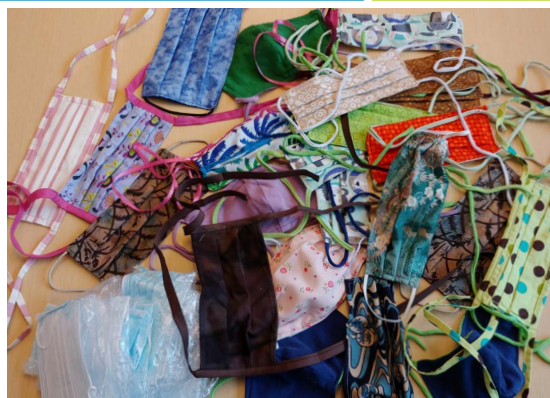

KPD bought.
We matched.

Mayor Baker of Kenmore, Mayor Cook of Woodinville, and King County Councilmember Dembowski went east over the mountains in May to bring back some onions for our local food bank—10,000 pounds of onions! Find out more about [East West Food Rescue](#) and their mission to save one potato (or onion!) at a time.

Councilmember Debra Srebnik organized a mask and clothing, and food drive for King County's isolation and quarantine facilities, helping people recovering from COVID with essential items. The community truly stepped up with these donations. She also organized a homemade mask donation drive. Over 130 masks were made and donated to the City of Kenmore, Mary's Place, and the Center for Human Services.

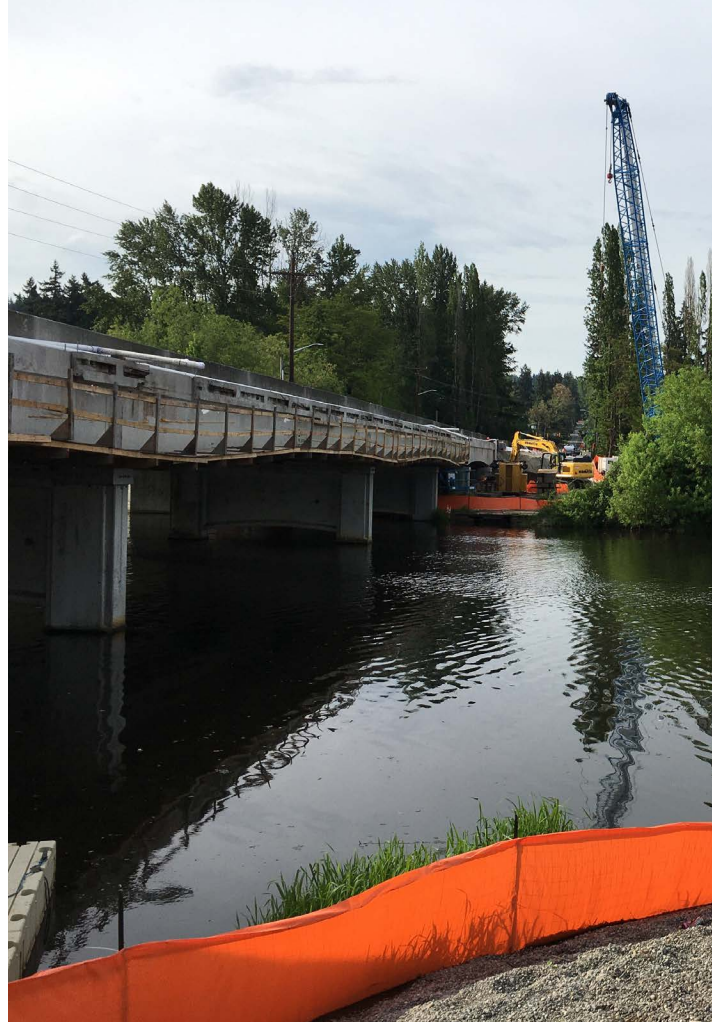

Summer Construction Projects Update:

The City of Kenmore has multiple construction projects scheduled during the coming months that will significantly impact traffic. Multiple construction projects will disrupt the way people get around Kenmore, both on land and water.

For more information, go to:
www.kenmoreconstruction.com

- **Juanita Drive NE Pedestrian and Bicycle Improvements project begins July 6!** Sidewalks and bicycle lanes installed on Juanita Drive NE between NE 143rd St. and NE 170th St. This project is part of the Walkways and Waterways voter-approved bond measure.
- **West Sammamish River Bridge Replacement project between NE 170th St and NE 175th St on 68th Ave NE**
- **Pavement preservation projects west of Arrowhead Elementary School**
- **Pavement preservation on a small number of roads in northern Kenmore**
- **Asphalt overlay on Simonds Road between NE 163rd Pl and 92nd Ave NE**

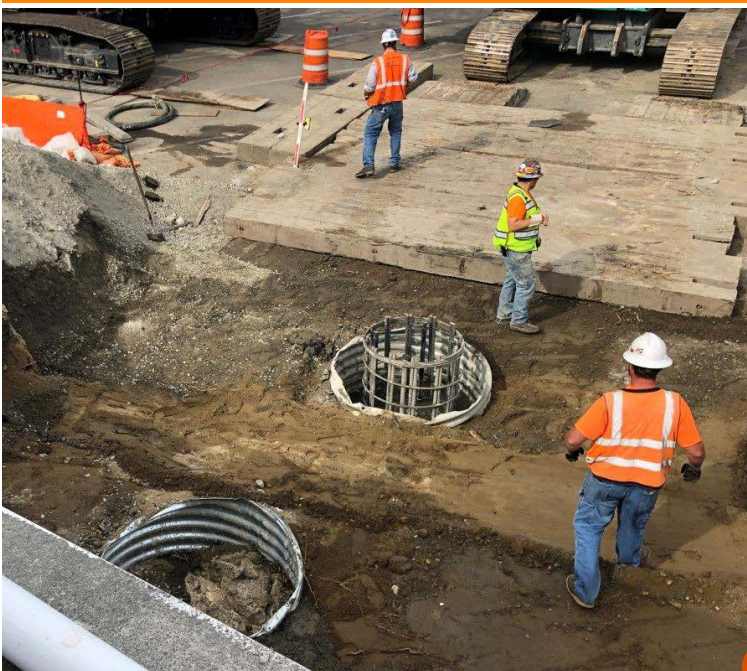

West Sammamish Bridge Project Update

Bridge construction is underway, with supporting piers being placed both north and south of the river. In-water work will begin on July 1 and continue through August 31, taking advantage of the fish timing window defined by the Department of Ecology and other agencies.

Although the Kenmore Boat Launch is open, some parking is reserved for bridge construction vehicles. Plan for longer waits to get in and out of the water. During the summer months, there will be periodic delays in passage under the bridges for water traffic for up to 15 minutes at a time during the day and up to 10 hours at a time at night.

Bicyclists may share the road with cars or walk bikes across the pedestrian path on the east bridge to accommodate other users since the west bridge sidewalk has been removed. Please remember that the speed limit through the construction site is reduced to 25 mph.

Go to www.kenmoreconstruction.com for more information and to sign up for updates.

Driving in Construction Zones: Tips to Help Keep All Road Users Safe this Summer

With more pedestrians and cyclists out enjoying the sunshine, and construction projects ramping up, it's important for drivers to take extra safety precautions while traveling through Kenmore during these summer months:

Stay informed and know before you go!

Find out what projects are happening in your neighborhood or on your commute, and give yourself additional time to travel.

Watch for changing road conditions and follow posted signage.

Construction zones are everchanging, pay attention to changes in road conditions and posted signage to make smart driving decisions.

Avoid distractions.

Dedicate your full attention to the road and put away distracting electronic devices such as cell phones.

Be courteous and give pedestrians the right-of-way:

Please be patient and kind to your neighbors as we all share the road.

These important driving reminders are provided as part of the Target Zero initiative.

More tips and information are available on the [City's website](#).

About Target Zero

The [Target Zero Initiative](#) was adopted by the City of Kenmore in April of 2014 with the goal of achieving zero pedestrian and bicyclist fatalities and serious injuries in Kenmore by 2025 by increasing awareness of pedestrian, bicyclist and driver safety issues.

Kenmore is working toward its Target Zero goal by engaging the Three E's: Engineering, Enforcement, and Education. These efforts include creating safer pedestrian and bicycle pathways, offering helmets at a low price, educating bicyclists, pedestrians, and drivers through events and pamphlets, and enforcing traffic safety laws for all road users - among many other citywide improvements.

Rewards for Children and Teens!

The City's Target Zero Reward Program strives to encourage children and teens under the age of 18 to be safer bicyclists and pedestrians. While out on patrol, Kenmore police officers will "cite" children and teens for displaying good traffic safety behavior such as wearing protective and reflective gear, signaling turns while riding a bike, using yellow crossing flags at crosswalks, and many other positive safety actions. These coupons are good for free treats courtesy of 7-Eleven. Be safe, be seen and get rewarded!

Walkways and Waterways Bond Measure Update

The park projects at Log Boom Park and Squire's Landing Park have been progressing since the last update in Fall of 2019. Both projects were included in the City's 2016 Walkways and Waterways voter-approved bond measure. The projects will improve waterfront access to Lake Washington and the Sammamish River, as well as restore native vegetation for wildlife habitat.

In February 2020, an open house was held to share the 60-percent level designs, schedules, and budgets. The project continues to be consistent with the 2016 Bond Levy concept plans, with refinements. The City Council will be updated later this year on the 90-percent level designs prepared for construction bidding. Construction is anticipated between 2021 through the end of 2023.

Upon completion, Log Boom Park Waterfront Access & Viewing Project will expand the existing beach area; restore native habitat areas; and create a new main trail, boat rental building, picnic shelter, and water access for hand-powered watercraft. The Squire's Landing Waterfront & Natural Open Space Access project will restore native habitat areas; create a public hand-powered watercraft facility with staging areas, float and hand-carry launches, a community plaza, enhanced natural areas.

For more information visit:

kenmorewa.gov/walkwaysandwaterways

New Park Recreation and Open Space (PROS) Plan

Future development of Kenmore's parks system, recreational facilities, and programs over the next 20 years have been outlined in a new planning document.

The [2020 Parks, Recreation and Open Space \(PROS\) Plan](#) document provides policy framework for future development. After a significant public outreach in 2019, the PROS Plan was recently approved by the City Council.

The plan was also approved by the State of Washington's Recreation and Conservation Office (RCO), enabling the city to apply for funding through various RCO grant programs. The plan is required to be updated every six years to maintain RCO grant eligibility. Updating the plan on a regular basis also ensures consistency with changing recreation trends, demographic context, and community interests.

The following seven goals represent the direction that Kenmore strives towards for the park, open space and recreation system:

- 1. Provide waterfront access;**
- 2. Provide safe routes to park, recreation and open space facilities;**
- 3. Preserve, restore, maintain and enhance built and natural environments to ensure quality recreational opportunities exist.**
- 4. Create a balance of passive and active recreation opportunities in parks;**
- 5. Provide equitable opportunities for diverse and affordable arts and recreation programs and community and cultural events.**
- 6. Engage the community in parks, recreation and open space decisions and activities; and**
- 7. Create a financially sustainable parks and recreation system through partnerships and stewardship.**

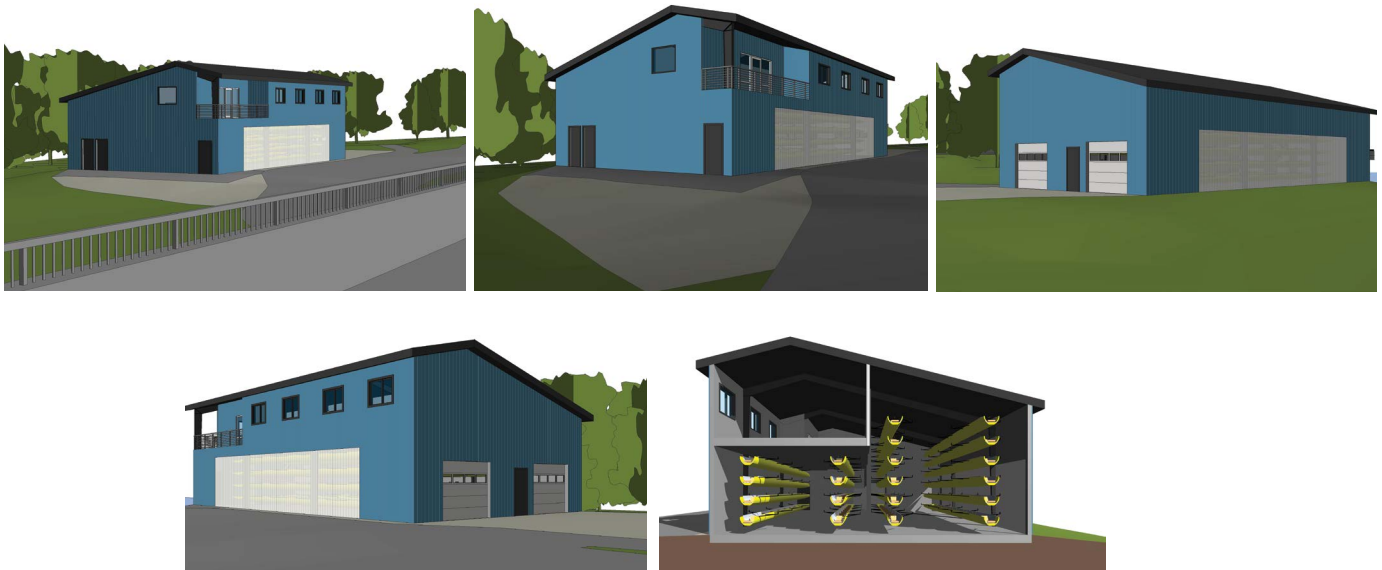

Boathouse Project at Rhododendron Park

Construction on the [Kenmore Boathouse](#) is moving forward! On March 16, City Council voted to award a \$1,195,826 contract to GenCap Construction to build a brand new 2,800-square-foot boathouse at the northern end of Rhododendron Park.

The boathouse is the next stage of the Rhododendron Park improvement plan, following 2018's boardwalk and float addition that increased ease of waterfront access for park users and a staging area for hand-powered watercraft users. The boathouse will be home to all four of Northshore School District's high school crew teams as well as the Kenmore Rowing Club. For all members of the public, the boathouse will also provide a staging platform for learn-to-row programs as well as summer youth rowing camps.

In addition to the storage and repair facilities, the boathouse contains coaching, training, and office spaces as well as a balcony overlooking the Sammamish River. The boathouse will complement the state-operated boat launch on the western side of the 68th Ave bridge to help make Rhododendron Park an all-inclusive spot for water activities. Construction has been timed to coincide with the 68th Ave bridge renovations for minimal disruption to park and bridge users. Construction is slated to begin June 2020 and be completed in winter 2020.

Community members who are interested in using the Kenmore Boathouse are encouraged to contact the Kenmore Rowing Club at kenmorerowinginfo@gmail.com.

Essential Summer Recreation Tips

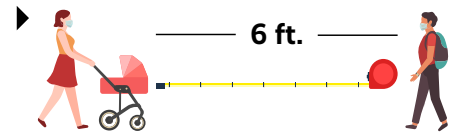

Enjoy the outdoors this summer while navigating COVID-19 safety guidelines

As we navigate new guidelines for using parks, it's time to get creative and find new ways to enjoy the outdoors. Here are some ideas for recreating in your own neighborhood this summer while following social distancing and safety guidelines:

- 1. Find a new walking route away from the crowds:** The Burke -Gilman Trail or Log Boom Park may be too crowded to safely socially distance. Explore your own neighborhood and find a new favorite walking route away from the masses. The Kenmore Library has a [list with maps of walking routes](#) around Kenmore with a variety of distances and ability levels.
- 2. Have a kayak, canoe or SUP?** Get on the water and float away from the crowds on a warm summer day. Water access is available at Squires landing park, Rhododendron Park, and Log Boom Park. Remember your personal flotation device and sunscreen. Keep your eyes open for excellent nature watching opportunities!
- 3. Plan a neighborhood scavenger hunt:** An interactive activity is an excellent way to spend time together outdoors as a family. Find ideas for simple scavenger hunts (such as shape or nature themed) online or make your own treasure hunt from neighborhood landmarks.
- 4. Sign up for a virtual 5k:** Many in-person 5ks have been canceled due to the pandemic and are instead turning to virtual formats. Sign up for a virtual 5k and plan a race route in your own neighborhood. Many virtual 5ks are still raising money for important non-profit organizations, and lots of them still give away t-shirts, bibs and other goodies to participants.
- 5. Find ways to enjoy your own backyard:** Construct a tree fort, set up an outdoor art station, plant some seeds, build a backyard firepit to roast s'mores, or pitch a tent and sleep under the stars. Be creative and use what you have to find new ways spend time out of the house connecting with your family members.

Tips for Physical Distancing In Parks

Know what 6 feet looks like. Lay measuring tape on the ground. It's the distance of a surfboard, long yoga mat or adult bike.

Do not use playgrounds or other frequently touched surfaces.

Go by yourself or those you live with. Strongly consider the use of a face covering.

Avoid crowded areas. If a space cannot be enjoyed safely, go home or discover a new park in your community.

Check out more ideas and information on the [City's Website](#)

For more resources on how to use parks safely during the COVID-19 pandemic, please visit: nrpa.org/Coronavirus

Face Coverings Encouraged in Public

Free Masks While Supplies Last

In May, the City of Kenmore announced a local Face Covering Directive asking all people and commercial establishments within Kenmore's boundaries to comply with the Public Health Seattle & King County Directive to wear a face covering that covers the nose and mouth in most public settings. The Kenmore directive is meant to educate and strongly encourage individuals to wear a face covering, however there will be no criminal, civil, or financial penalties for failing to wear a face covering in public.

The directive advises residents to wear a face covering at any indoor or outdoor public space where they may be within six feet of someone who does not live in their homes. A face covering is not needed during outdoor activities where six-foot distancing guidelines can be maintained.

Pick up a pack of four disposable face masks for free!

In order to support and make it easier to comply with this directive locally, the City of Kenmore is giving away a limited supply of disposable face masks.

Visit the no-contact pick up station on Tuesdays from 10:00 a.m. - 12:00 p.m. and Thursdays from 5:00 p.m. - 7:00 p.m. at the front entrance on the southwest corner of City Hall while supplies last.

Reminder:

Personal fireworks are banned on Kenmore city limits. Kenmore municipal code 8.10. Firework offenses are misdemeanors with a maximum penalty of 90 days in jail and/or \$1,000 fine.

Please stay safe this 4th of July!

CITY OF KENMORE

JUNE IS PRIDE MONTH IN KENMORE!

Stand in solidarity with,
and celebrate the
contributions of the
LGBTQ community.

MEETING & OTHER INFORMATION

Kenmore City Council regular meetings – currently being held virtually at 7:00 p.m. on the second, third, and fourth Mondays of the month and are open to the public. Live stream and on-demand Council meeting videos can be found at www.kenmorewa.gov/government/city-council

Coffee with Council – currently being held virtually on the first Monday at 7:30 a.m. and third Saturday at 8:00 a.m. of each month. Find out how to join at kenmorewa.gov/our-city/calendar

Kenmore Planning Commission meetings are currently on hold indefinitely. Meeting agendas and schedules are available online at www.kenmorewa.gov/government/departments/community-development/planning-commission
